Practice Overview

Chambers & Partners 2022 (Clin Neg) - Band 1

Mary Ruck is a hugely popular choice for highly complex fatal delayed diagnosis, spinal injury and gynaecology cases. She has notable experience in birth-related brain injury cases.

Mary is described in the directories as a hugely popular choice for complex cases with notable experience in birth brain injury cases, possessing excellent analytical skills with amazing attention to detail and a forensic approach to complex cases.

Mary has a long-held interest in medical law, stemming from post graduate academic study in Medical Law and Ethics with Professor Ian Kennedy at King's College, London.

Mary spent her early career at the London Bar before moving to Manchester.

In 2008 Mary moved to Byrom Street Chambers, as a senior junior. She particularly enjoys the variety of work that position brings within her specialism. She is established as a specialist in clinical negligence, serious personal injury and fatal injury cases. She has a particular interest in the human rights aspects of medical law and has litigated claims in the ECHR resulting in awards of damages and friendly settlement. She has experience of medical regulatory work. She acts routinely as a senior junior alone against Silk.

She undertakes cases nationwide with clients largely in the Northwest, London and the Southwest.

Mary undertakes conferences hearings in-person, remotely and a hybrid of remote/in-person working. She lectures regularly for Chambers and undertakes training for the Northern Circuit.

Mary was appointed to the First Tier Tribunal, Mental Health in 2007 and to the Special Educational Needs and Disability Tribunal in 2019.

Mary supports the Evolve Foundation for International Legal Assistance, assisting with submissions for clients on death row in Uganda.

CASELOAD

Claims are of high value and are usually complex in terms of law or medicine or both. Less valuable claims will involve a particular issue of legal importance or novelty. Mary has particular interest in and experience of claims arising out of brain injury.

Mary undertakes Article 2 inquests with and without a jury in cases involving deaths in custody, care homes and psychiatric hospitals and numerous cases under the Fatal Accidents legislation with particular emphasis on cases involving vulnerable clients and systemic failings. She is currently involved in Article 2 Inquests arising out of Covid-19.

Mary was involved in the Kenyan Emergency Group Litigation from 2012. She represented 20,000 victims of torture at trial in the High Court between May 2016 and October 2018. She was the First Junior in a team involving three leading counsel, including specialist leading counsel on international law. She managed a team of juniors with responsibility for pleadings and submissions in relation to 27 Test Claimants.

She undertook cross examination of medical witnesses and made oral submissions to the Court in interlocutory and final hearings. She undertook the drafting of legal arguments, including submissions in relation to interlocutory hearings on domestic and international law, the drafting of petition to the Supreme Court and submissions for the Court of Appeal.

Mary represented the Claimant parents in Khan -v- UK from first instance to its eventual successful resolution in Strasbourg, with significant developments in domestic law at the Court of Appeal concerning the duty of care owed to children. Her argument at first instance regarding the rights of parents was successful in the ECHR.
